

Camera geometry matched to the measured robot: height 0.20 m, pitch 2.1° down, HFOV 32°

Rows matched on apparent slab size; appearance still differs and not benignly: latents 6.7× out, probe at chance

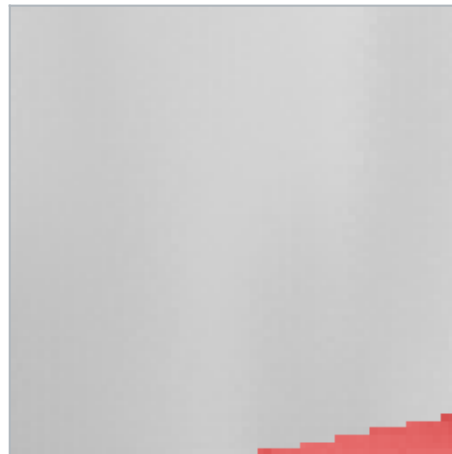

slab 8 % of view

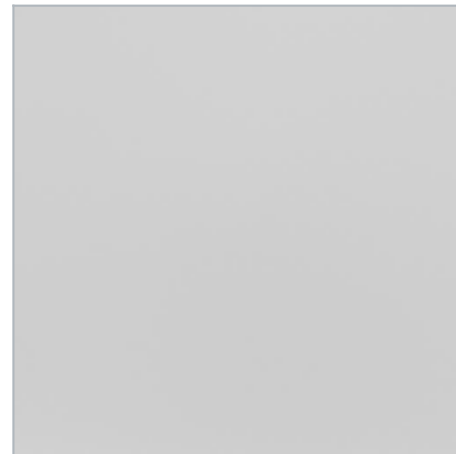

slab 4 % of view

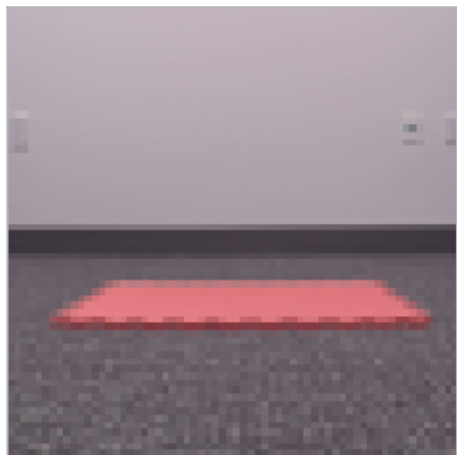

slab 2 % of view

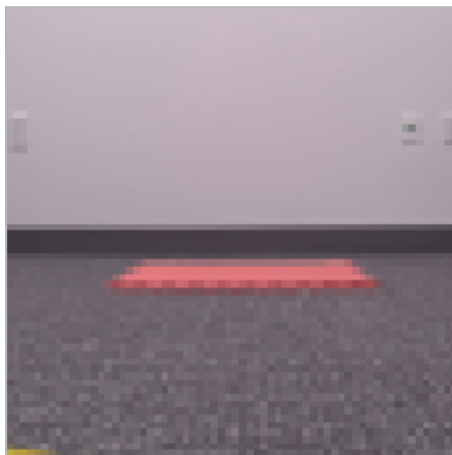

no slab

red pad 1.5 m

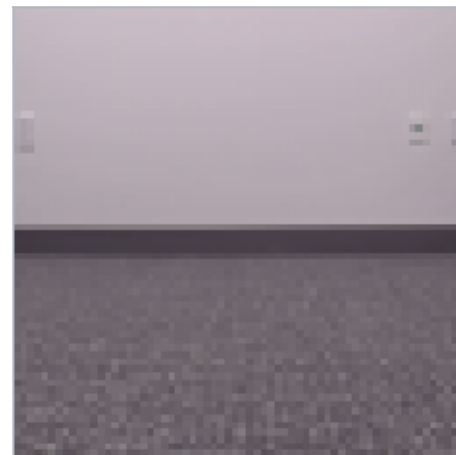

red pad 2.0 m

red pad 2.8 m

empty arena
